## SUBSTANDARD WATER SERVICE REPLACEMENTS

### Alden Road and Sheldon Road

Dear Residents and Abutters of Alden Road and Sheldon Road:

The Watertown Department of Public Works and our contractor, Commonwealth Construction, would like to inform you that we will be replacing *only* sub-standard (cement lined and/or cast iron, or undersized copper) water services. This work is in preparation for road reconstruction next year.

Replacements and upgrades will include only the water service pipe from the town water main to the curb stop (in the sidewalk area). The work for each home will require approximately 3-6 hours to complete.

**Weather permitting**, work will begin on Monday, November 23, 2020.

Based on our records, work is anticipated at the following house services:

Alden Road: #12-14 and #16-18 Alden Road.

Sheldon Road: #7, #12, #15 and #18 Sheldon Road.

*If your address is not listed, then our records indicate your water service is standard 1-inch copper in the street and does not require replacement.*

The Watertown Police will be informed of the construction and its effects. Typical hours of construction work are from 7:00 AM to 4:00 PM.

Should you have any questions, you may call Public Works at 617.972.6420.

Sincerely,

Gerald S. Mee, Jr.  
Superintendent of Public Works
