Tel: 617-972-6420

Fax: 617-972-6402

September 20, 2018

IMPORTANT NOTICE FROM THE DEPARTMENT OF PUBLIC WORKS

Dear Residents and abutters of Phillips Street:

Laboratory testing for water quality of the temporary water system piping has been completed. The Department is now approving activation of the temporary water line.

A representative from the Town's Engineering Firm, Weston and Sampson and our contractor, C. Naughton Corp, will need access to each home to connect the by-pass water main to each residence. This will utilize a hose connection to the hose bib on the outside of each structure. **Access to the basement will be required to complete the connection.**

Homeowner approval and entry into your property will begin tomorrow, Friday, September 21, 2018 between the hours of 7:00 AM and 4:00 PM. If this time frame is inconvenient, please contact the contractor's coordinator, TJ Shea at 781-563-0451 for an appointment.

During this time the contractor will be accompanied by a Public Works representative wearing a lime green safety vest labeled "Public Works" and will have a vehicle labeled Public Works in very close proximity to the houses being entered.

Upon completion of this task general excavation of the water main will commence. We would like to thank you in advance for your cooperation.

If you have any questions contact the Public Works Department at (617) 972-6420.

Gerald S. Mee, Jr.
Superintendent
