

LET'S TALK ABOUT STORMWATER!

WATERTOWN'S STORMWATER MANAGEMENT PLAN

What: Monthly meeting of Watertown's Stormwater Advisory Committee

When: 7:00 PM on Thursday, April 25th

Where: Town Hall, Lower Hearing Room (149 Main Street)

Watertown Square, Watertown, MA

Come to learn more about the Town's program for managing stormwater runoff and to help us update our Stormwater Management Plan.

- ◆ *Learn about stormwater runoff and its impact to the Charles River*
- ◆ *Hear how the Town regulates stormwater runoff from development*
- ◆ *Contribute to the Town's Stormwater Management Plan*
- ◆ *Brainstorm ways to engage Watertown about stormwater*

Stormwater from Watertown's drainage system flows directly into the Charles River without treatment and contributes to pollution in the river. The EPA requires the Town to take certain measures to control and treat stormwater runoff. The Town's approach consists of 6 elements:

1. Public Education
2. Public Involvement
3. Construction Runoff Control
4. Illicit Discharge Detection & Elimination
5. Post-construction Stormwater Management
6. Pollution Prevention

65 Grove Street, Watertown, MA
