HOSMER SAFE ROUTES TO SCHOOL PROJECT PREPARATION FOR FINAL PAVING

BOYLSTON STREET, FROM FAIRFIELD ST. TO CHAUNCEY ST. INCLUDING
INTERSECTIONS; CHAUNCEY STREET

Due to weather conditions, the schedule of work by J. Tropeano, Inc. has been modified. The preparation work for final paving at the Hosmer Safe Routes to School is now scheduled for *next week*. *Please be advised that due to the nature of the work, final paving is always weather dependent.*

- Raising castings is scheduled on **Wednesday, May 8**.
- Pavement milling of transition areas at the work limits on Chauncey Street and Boylston Street at each intersecting street including School Street on **Thursday, May 9**. Expect parking restrictions and road closures during this phase of the work, however the work will be phased so as not to impact school pick-up/drop-off.
- Final paving is scheduled for **Saturday, May 11**, WEATHER PERMITTING. You will be notified again prior to this work.
- Final loaming and seeding, tree planting, and landscaping will proceed after final pavement to complete the project, as will crosswalk and line painting.
- The Watertown Police will be informed of the construction and its effects, including the need for extended on-street parking due to driveway repairs. They will be present to assist residents through the work zone.

We appreciate your cooperation as weather conditions have delayed this portion of the work. We know you will enjoy the improved appearance and condition of your roadway for many years in the future. Should you have any questions, please call the Scott Leisey, MassDOT Inspector, at 781-853-8471.

Sincerely,

Gerald S. Mee, Jr.
Superintendent of Public Works
